## How well can I add and subtract?

My adding and subtracting skills	I am not confident	I am sometimes confident	I am very confident
I can add and subtract numbers correctly in order to find the correct answer.			
I can explain to my teacher and other students how to add and subtract numbers correctly in order to find the correct answer.			
I can add and subtract numbers between 1 and 100 correctly.			
I understand place value when I add and subtract.			
This is what I can do to improve my results:
